Put your hard hats on,
Put your hard hats on,
And your tool belts, too,
And your tool belts, too,
Cuz we've got some building to do!

Get your hammers and nails,
Get your hammers and nails,
Grab your two by fours,
Grab your two by fours,
We're building the Church – mine and yours!

We're building up,
B-b-b-building up the Body of Christ!

We're Christians, Orthodox Christians under construction.

I'm a work in progress, that I know,
Every single day, I continue to grow,
Like a building, bottom to the top,
One brick at a time, I just can't stop,

Cuz we're building up,
B-b-b-building up the Body of Christ!

We're gonna build up the Body of Christ 'til we come to the unity of the faith –
Build up the Body of Christ 'til we come to the unity of the faith!

Together you and me, teamwork and charity,
There's UNITY signs straight ahead!
